# VERDE FINO ALL’ORIZZONTE

Tutto è iniziato qui, intorno alla città di Chiusi, tra la Toscana e l’Umbria, in una collina affacciata sul lago dove da sempre viviamo in armonia con la natura e dove Enzo Margheriti è nato e vissuto, affascinato dalla vegetazione circostante, e dove, seguendo la passione e l’amore per le piante e per i giardini, ha dato vita alla fine degli anni ‘60 alla Vivai Margheriti, iniziando con piccole serre in modesti lembi di terra collinari. Passo dopo passo, con impegno e dedizione, Enzo Margheriti ha saputo trasmettere la stessa passione e lo stesso amore per le piante ai suoi figli, David e Alberto, e a tutti i suoi collaboratori, portando l’azienda a un’estensione di oltre 300 ettari di coltivazione e con una collezione varietale di oltre di 2600 specie di piante, dando origine alla Margheriti Piante. Oggi l’azienda guarda al futuro nel suo percorso evolutivo, posizionandosi come pietra miliare nel comparto vivaistico internazionale. Trovano spazio nei nostri vivai piante solitarie secolari di pronto effetto in qualsiasi dimensione e misura, oltre alla nostra grande collezione di piante; tutto ciò sempre pronto per essere trapiantato in ogni periodo dell’anno nei giardini e nelle grandi opere a verde in oltre 20 paesi nel mondo. Oggi la nostra azienda è un punto di riferimento per architetti, paesaggisti, tecnici del verde ed enti, pubblici e privati, per animare i progetti delle loro opere a verde. È nostro piacere invitare tutti i nostri clienti, operatori del verde e amatori a visitare i nostri vivai.

# GREEN UP TO THE HORIZON

*It all started here, near the town of Chiusi between Tuscany and Umbria, on a hill turned towards the lake, where life is lived, as it always has, in harmony with nature, where Enzo Margheriti was born and has always lived, with his abiding fascination for the surrounding flora and where following his grand passion - the love for plants and gardens - he gave life at the end of 60s, to his nurseries (Vivai Margheriti) starting with small greenhouses built on some modest patches of the hillside land. Step by step, with commitment and dedication, Enzo Margheriti has imparted his passion and the same love for plants to his sons, David and Alberto, and to his staff, expanding the nurseries to more than 300 hectares of cultivation with a collection of over 2600 species as a platform to the formation of the company, Margheriti Piante. Today the company looks to the future in its evolutionary course, positioning itself as a touchstone operation in the international nursery sector. Finding space in our nurseries are singular antique specimens for ready-made effect of all sizes besides our large collections of varieties; all of them in readiness to be transplanted, at any season of the year, to gardens and large landscaping projects in over 20 countries around the world. Today our company is a point of reference and facilitation; for architects, landscape designers, gardening specialists and corporations, both public and private, in giving life to all types of greening projects. It is our pleasure to invite all our customers, professionals in the sector and hobbyists alike to visit our nurseries.*

# VERT JUSQU’À L’HORIZON

Tout a commencé ici, autour de la ville de Chiusi, entre la Toscane et l’Ombrie sur une colline qui fait face au lac où, depuis toujours, nous vivons en harmonie avec la nature. C’est là, que Enzo Margheriti est né et a vécu, fasciné par la végétation environnante. Suivant sa passion et son amour pour les plantes et pour les jardins, il a donné vie, à la fin des années 60, à la Vivai Margheriti, commençant avec des petites serres dans des modestes bandes de terre. Petit à petit, avec engagement et dédition, Enzo Margheriti a su transmettre la même passion et le même amour pour les plantes à ses enfants, David et Alberto, et à tous ses collaborateurs,amenant l’entreprise à une extension de plus de 300 hectares de culture de plantes et une collection variétale de plus de 2600 espèces de végétaux, donnant naissance à la Margheriti Piante. Aujourd’hui l’entreprise regarde à l’avenir dans son parcours évolutif, se plaçant comme référence historique et importante dans le secteur international des pépinières. Dans nos pépinières, des plantes solitaires à effet immédiat dans toutes le mesures et dimensions, trouvent leur espace, ainsi que notre grande collection de plantes. Toutes ces plantes sont toujours prêtes pour être plantées à tout moment de l’année, dans les jardins, dans les grandes oeuvres du vert et dans tous les pays du monde. Aujourd’hui notre enterprise est un point de référence pour architectes, paysagistes, techniciens des jardins et organismes publics et privés, pour animer leurs projets de jardins et espaces verts. C’est avec plaisir que nous invitons tous nos clients, techniciens des jardins espaces verts et amateurs à visiter nos pépinières.

Arbusti coltivati per la compattezza ed eleganza del fogliame, che in autunno si tinge di rosso nelle specie decidue, e per le generose e prolungate fioriture. In alcune specie i fiori sono muniti di un calice rosso che persiste lungamente sulla pianta. Adatti a siepi, bordure o come individui isolati.

*Shrubs cultivated for their attractive foliage, tinged with red in the autumn in deciduous species, and for their profusion of long-lasting flowers. Many species have a red calyx lasting long after the corolla has fallen. Abeliae are ideal for hedges, borders or as specimen plants.*

Arbustes cultivés pour la compacité et l'élégance de leur feuillage qui se colore de rouge en automne chez les espèces décidues, et pour leurs floraisons abondantes et prolongées. Chez certaines espèces les fleurs présentent un calice rouge qui persiste longtemps sur la plante. Idéaux pour les haies, les bordures et en sujets isolés.

Abbiamo riunito in questo gruppo tutte le specie che un tempo erano riunite nel genere Bignonia e oggi sono smembrate in numerosi generi. Sono piante rampicanti coltivate per la bellezza dei loro fiori, usate su grigliati, muri, pergolati.

Gathered into this group are all species once grouped in genus Bignonia and now split into several genera. Grown for their showy flowers on a grillage, wall or a pergola.

Nous avons rassemblé dans ce groupe toutes les grimpantes faisant autrefois partie du genre Bignonia et qui sont actuellement divisées en de nombreux genres. Ce sont des plantes grimpantes cultivées pour la beauté de leurs fleurs sur les grillages, les murs et les pergolas.

Arbusti o alberi con fiori insignificanti talora circondati da brattee appariscenti, coltivati per il portamento elegante, le foglie autunnali variopinte o i getti invernali colorati. Ideali nelle bordure, giardini a bosco, ai bordi dell’acqua o come esemplari isolati.

*Shrubs or trees with inconspicuous flowers sometimes with showy bracts, cultivated for their elegant habit, colourful autumn leaves or winter shoots. Ideal for shrub borders, woodland gardens, water edges or specimen plants.*

Arbustes ou arbres aux fleurs insignifiantes parfois entourées de bractées éclatantes, cultivés pour leur port élégant, leurs feuilles automnales multicolores ou leurs jets hivernaux colorés. Idéaux dans les bordures, les jardins-forêt, au bord de l’eau ou en isolés.

Arbusti con fogliame lucido e compatto preziosi per le copiose fioriture estive. Ideali per siepi, bordure, schermature e frangivento nelle zone costiere.

Shrubs with glossy foliage, highly appreciated for their floral display during summer. Ideal for hedges, borders, shields or as windbreaks in coastal areas

Arbustes à feuillage luisant et compact appréciés pour leurs abondantes floraisons estivales. Idéaux pour les haies, les bordures, comme écrans et brise-vent dans les zones côtières.

Arbusti coltivati per le profuse fioriture di capolini simili a margherite. Ideale per aiuole e bordure miste.

*Shrubs cultivated for their handsome daisy-like flowerheads. Ideal in flower beds or mixed borders.*

Euonymus japonicus ‘Albomarginatus’

Euonymus japonicus

Eupatorium atrorubens

Eupatorium morisii

Euphorbia polychroma

Euphorbia cyparissias

Euphorbia characias ‘Black Pearl’

Euphorbia myrsinites

Arbustes cultivés pour leurs abondantes floraisons de capitules semblables aux Marguerites. Idéaux dans les plates-bandes et les bordures mixtes.

EVOLVULUS Convolvulaceae

E. convolvuloides S-Amer

Arbusti o rampicanti coltivati per le appariscenti infiorescenze in cui i fiori più grandi sono quelli sterili. Sono adatte a molteplici usi, nelle bordure, come esemplari isolati o in vaso. In H. macrophylla il colore dei fiori dipende dall'acidità del terreno. Le rampicanti sono ideali per ambienti ombrosi.

Hydrangea macrophylla ‘Ayesha’

Hydrangea hortensis

Hydrangea macrophylla spp.

*Shrubs or climbers cultivated for their showy inflorescences with large sterile flowers. Hydrangeas are suitable for a wide range of purposes in gardens, like borders, as isolated plants or in containers. Climbers are ideal in shady sites.*

Arbustes ou grimpantes cultivés pour leurs inflorescences spectaculaires dont les fleurs les plus grandes sont stériles. Utilisés pour nombreux usages, dans les bordures, en sujets isolés ou en pots.

Alberi o arbusti coltivati per i grandi fiori, spesso profumati. Gli alberi ideali come piante da ombra o individui focali, gli arbusti nelle bordure o come esemplari isolati.

*Trees or shrubs cultivated for showy, often fragrant flowers. Trees are suitable for shade or as specimen plant; shrubs are ideal in borders or as isolated plants.*

Arbres ou arbustes cultivés pour leurs grosses fleurs, souvent parfumées. Les arbres sont excellents pour l'ombrage ou comme arbres spécimens, les arbustes dans les bordures ou en sujets isolés.

Arbusti sempreverdi di grande effetto per il loro fogliame e le prolungate fioriture gialle. Ideali per bordure, giardini a bosco o come piante guida. Tollerano tutte le esposizioni e tutti i suoli.

Remarkable evergreen shrubs with elegant foliage and long-lasting yellow inflorescences. Suitable for borders, woodland gardens or as specimen plants. They tolerate any soil and any exposure.

Arbustes sempervirents très décoratifs, appréciés pour leur feuillage et leurs floraisons jaunes prolongées. Excellents pour les bordures, les jardins-forêt ou comme plante spécimen. Ils tolèrent toutes les expositions et tous les sols.

Piante erbacee sempreverdi, coltivate per l'elegante simmetria e compattezza del fogliame. Preferiscono generalmente le condizioni di ombra parziale o totale e buona umidità. Ideali nei giardini a bosco o nelle siepi ombrose.

*Evergreen herbaceous, appreciated for elegant symmetry of their fronds and compact shape. Ferns usually prefer partial to deep shade and good humidity. Suitable for woodland gardens or shady borders.*

Plantes herbacées sempervirentes, cultivées pour la symétrie élégante et la compacité de leur feuillage. Elles préfèrent généralement les conditions d'ombre partielle ou totale et une bonne humidité. Idéales dans les jardins-forêt ou dans les haies ombragées.

Gruppo di perenni o annuali cespitose, talora rizomatose, coltivate per il fogliame, il portamento e le leggere infiorescenze. Ideali nelle bordure erbacee e miste.

Clump-forming, perennials or annuals, sometimes rhizomatous, cultivated for their foliage, shape and slender inflorescences. Suitable for herbaceous and mixed borders.

Herbes annuelles ou pérennes, cespiteuses, quelquefois rhizomateuses, utilisées pour l’élégance de leur feuillage, pour leurs port et légères inflorescences.

Carex buchananii

Carex morrowii ‘Variegata’

Juncus effusus

Juncus ensifolius

Carex comans ‘Amazon Mist’

Carex pendula

Juncus effusus ‘Spiralis’

Gruppo di succulente colonnari o sferiche con fusti carnosi e foglie trasformate in spine. Piantare all’aperto solo dove la temperatura non scende al di sotto dei 5 gradi; riparare dalla pioggia durante il periodo invernale.

*Group of columnar or spherical succulents with fleshy stems and leaves transformed into thorns. Grow outdoors only where temperature doesn’t drop below 5 °C; shelter from rain in winter*

Groupe de succulentes colonnaires ou sphériques à tiges charnues avec des feuilles transformées en épines. Ne planter à l’extérieur que si la température ne descend pas au-dessous de 5 degrés; protéger de la pluie pendant l’hiver.

Pachycereus pringlei

Opuntia rotundifolia

Opuntia ficus-indica

Mammillaria microhelix

Mammillaria Matudae

Notocactus leninghausii

Notocactus magnifica

Trichocereus pasacana

INDICI
INDEXES / INDEX

SINONIMI BOTANICI
BOTANICAL SYNONYMS / SYNONYMES BOTANIQUES

A
Abelia rupestris = Abelia chinensis
Abies concolor 'Candicans' = Abies concolor 'Argentea'
Abies pectinata = Abies alba
Abutilon striatum = Abutilon pictum
Acacia horrida = Acacia karroo
Acacia semperflorens = Acacia retinodes
Acanthus balcanicus = Acanthus hungaricus
Acanthus longifolius = Acanthus hungaricus
Acanthus spinosissimus = Acanthus spinosum
Acer ginnala = Acer tataricum subsp. ginnala
Acer grosseri = Acer davidii subsp. grosseri
Acer japonicum 'Filicifolium' = Acer japonicum 'Aconitifolium'
Acer negundo 'Argenteovariegatum' = Acer negundo 'Variegatum'
Acer palmatum 'Senkaki' = Acer palmatum 'Sango-kaku'
Acer x freemanii 'Jeffersred' = Acer x freemanii 'Autumn Blaze'
Aconitum fischeri = Aconitum carmichaelii
Actinidia chinensis = Actinidia deliciosa
Aesculus hippocastanum 'Flore Pleno' = Aesculus hippocastanum 'Baumannii'
Aethionema pulchellum = Aethionema grandiflorum
Ailanthus glandulosa = Ailanthus altissima
Akebia lobata = Akebia trifoliata
Allamanda neriifolia = Allamanda schottii
Aloe barbadensis = Aloe vera
Aloe galpinii = Aloe ferox
Aloe succotrina = Aloe ferox
Althaea rosea = Alcea rosea
Alyssum saxatile = Aurinia saxatilis
Ampelopsis veitchii = Parthenocissus tricuspidata 'Veitchii'
Anchusa italica = Anchusa azurea
Andromeda rosmarinifolia = Andromeda polifolia
Anemone x hybrida 'Prince Henry' = Anemone hupehensis 'Prinz Heinrich'
Antirrhinum glutinosum = Antirrhinum hispanicum
Arabis albida = Arabis caucasica
Arabis alpina subsp. caucasica = Arabis caucasica
Aralia japonica = Fatsia japonica
Aralia reticulata = Meryta denhamii
Aralia sieboldii = Fatsia japonica
Araucaria imbricata = Araucaria araucana
Araucaria excelsa = Araucaria heterophylla
Aristolochia altissima = Aristolochia sempervirens
Aristolochia durior = Aristolochia macrophylla
Aruncus sylvestre = Aruncus dioicus
Arundinaria disticha = Pleioblastus pygmaeus var. distichus
Arundinaria fastuosa = Semiarundinaria fastuosa
Arundinaria humilis = Pleioblastus humilis
Arundinaria japonica = Pseudosasa japonica
Arundinaria metake = Pseudosasa japonica
Arundinaria murielae = Fargesia murielae
Arundinaria nitida = Fargesia nitida
Arundinaria palmata = Sasa palmata
Arundinaria simonii = Pleioblastus simonii
Arundinaria simonii 'Variegata' = Pleioblastus simonii 'Variegatus'
Arundinaria tessellata = Thamnocalamus tessellatus
Arundinaria viridistriata = Pleioblastus auricomus
Asparagus meyeri = Asparagus densiflorus 'Myersii'
Asparagus 'Myers' = Asparagus densiflorus 'Myersii'
Asparagus plumosus = Asparagus setaceus

Asparagus sprengeri = Asparagus densiflorus 'Sprengeri'
Asystasia bella = Mackaya bella
Aubrieta deltoidea = Aubrieta x cultorum

B
Bambusa metake = pseudosasa metake
Bartlettina sordida = Eupatorium atrorubens
Beloperone guttata = Justicia brandegeana
Berberis buxifolia var. nana = Berberis buxifolia 'Pygmaea'
Betula alba = Betula pendula
Betula pendula 'Dalecarlica' = Betula pendula 'Laciniata'
Betula verrucosa = Betula pendula
Bignonia capensis = Tecoma capensis
Bignonia chamberlainii = Anemopaegma chamberlainii
Bignonia cherere = Distictis buccinatoria
Bignonia grandiflora = Campsis grandiflora
Bignonia jasminoides = Pandorea jasminoides
Bignonia lindleyana = Clytostoma callistegioides
Bignonia radicans = Campsis radicans
Bignonia radicans = Campsis radicans 'Flava'
Bignonia stans = Tecoma stans
Bignonia tweediana = Macfadyena unguis-cati
Bignonia venusta = Pyrostegia venusta
Bletilla hyacinthoides = Bletilla striata
Bouganvillea glabra 'Variegata' = Bouganvillea 'Scarlet Queen Variegata'
Brunnera macrophylla = Anchusa myosotidiflora
Buddleja davidii 'Petite Indigo' = Buddleja davidii 'Nanho Blue'
Bulbine caulescens = Bulbine frutescens
Buxus sempervirens 'Aureomarginata' = Buxus sempervirens 'Marginata'
Buxus sempervirens 'Kingsville' = Buxus sempervirens 'Compacta'
Buxus sempervirens 'Thymifolia' = Buxus sempervirens 'Rosmarinifolia'

C
Callicarpa giralddii = Callicarpa bodinieri var. giraldii
Callistemon viminalis 'Captain Cook' = Callistemon 'Captain Cook'
Caltha palustris 'Alba' = Caltha palustris var. alba
Campanula muralis = Campanula portenschlagiana
Campsis radicans 'Yellow Trumpet' = Campsis radicans 'Flava'
Cantua dependens = Cantua buxifolia
Carex oshimensis 'Evergold' = Carex hachijoensis 'Evergold'
Carissa grandiflora = Carissa macrocarpa
Carpinus betulus 'Pyramidalis' = Carpinus betulus 'Fastigiata'
Caryopteris mastacanthus = Caryopteris incana
Ceanothus x lobbianus = Ceanothus dentatus
Cedrela sinensis = Toona sinensis
Cercis siliquastrum f. albida = Cercis siliquastrum 'Alba'
Cassia corymbosa = Senna corymbosa
Cassia x floribunda = Senna x floribunda
Cestrum purpureum = Cestrum elegans
Chaenomeles maulei = Chaenomeles japonica
Chamaecytisus purpureus = Cytisus purpureus
Chamaelum nobile = Anthemis nobilis
Chamaerops excelsa = Trachycarpus fortunei
Chamaespartium sagittale = Genista sagittalis
Chrysanthemum coccineum = Tanacetum coccineum
Chrysanthemum hosmariense = Leucanthemum hosmariense
Chrysanthemum maximum = Leucanthemum x superbum
Cineraria clivorum = Ligularia dentata

*Cineraria maritima* = Senecio cineraria  
*Cistus hybridus* = Cistus x corbariensis  
*Cistus incanus subsp. creticus* = Cistus creticus  
*Cistus palhinhae* = Cistus ladanifer  
*Citrus margarita* = Fortunella margarita  
*Citrus mitis* = x Citrofortunella microcarpa  
*Citrus triptera* = Poncirus trifoliata  
*Clematis ‘M.me le Coultre’* = Clematis ‘Marie Boisselot’  
*Clerodendrum fragrans* = Clerodendrum philippinum  
*Clianthus puniceus ‘Flamingo’* = Clianthus puniceus ‘Roseus’  
*Colletia armata* = Colletia hystrix  
*Colletia cruciata* = Colletia paradoxa  
*Convolvulus mauritanicus* = Convolvulus sabatius  
*Cornus baileyi* = Cornus sericea ‘Bailey’  
*Cornus stolonifera ‘Flaviramea’* = Cornus sericea ‘Flaviramea’  
*Cornus stolonifera ‘Kelsey’s Dwarf’* = Cornus sericea ‘Kelseyi’  
*Correa ‘Harrisii’* = Correa ‘Mannii’  
*Cotoneaster atropurpureus ‘Variegatus’* = Cotoneaster horizontalis ‘Variegatus’  
*Cotoneaster floccosus* = Cotoneaster salicifolius  
*Cotoneaster microphyllus* = Cotoneaster integrifolius  
*Cotoneaster thymifolius* = Cotoneaster integrifolius  
*Crassula arborescens* = Crassula ovata  
*Crataegus laevigata ‘Coccinea Plena’* = Crataegus laevigata ‘Paul’s Scarlet’  
*Crataegus x prunifolia* = Crataegus persimilis ‘Prunifolia’  
*Cupressus leylandii* = x Cupressocyparis leylandii  
*Cyclamen neapolitanum* = Cyclamen hederifolium  
*Cydonia sinensis* = *Pseudocydonia sinensis*  
*Cydonia speciosa* = Chaenomeles speciosa  
*Cyperus papyrus ‘Nanus’* = Cyperus prolifer  
*Cytisus ‘Porlock’* = Genista ‘Porlock’

#### D

*Daboecia polifolia* = Daboecia cantabrica  
*Dasyllirion quadrangulatum* = Dasyllirion longissimum  
*Datura arborea* = Brugmansia arborea  
*Datura aurea* = Brugmansia aurea  
*Datura candida* = Brugmansia x candida  
*Datura sanguinea* = Brugmansia sanguinea  
*Datura suaveolens* = Brugmansia suaveolens  
*Datura rosei* = Brugmansia sanguinea  
*Datura versicolor* = Brugmansia versicolor  
*Deutzia chunii* = Deutzia ningpoensis  
*Dianthus caesius* = Dianthus gratianopolitanus  
*Diascia elegans* = Diascia vigilis  
*Dimorphotheca ecklonis* = Osteospermum ecklonis  
*Doxantha capreolata* = Bignonia capreolata  
*Dracaena indivisa.* = Cordyline indivisa  
*Dracena australis ‘Red Star’* = Cordyline australis ‘Red Star’  
*Duranta plumieri* = Duranta erecta  
*Duranta repens* = Duranta erecta

#### E

*Echium fastuosum* = Echium candicans  
*Edgeworthia papyrifera* = Edgeworthia chrysanta  
*Elaeagnus argentea* = Elaeagnus commutata  
*Elaeagnus pungens ‘Aureovariegata’* = Elaeagnus pungens ‘Maculata’  
*Erica hibernica* = Erica erigena  
*Erigeron mucronatus* = Erigeron karvinskianus  
*Eugenia myrtifolia* = Syzygium paniculatum  
*Euonymus japonicus ‘Aureovariegatus’* = Euonymus japonicus ‘Ovatus Aureus’  
*Euphorbia ‘Charam’* = Euphorbia ‘Red Wing’

#### F

*Fagus sylvatica ‘Tricolor’* = Fagus sylvatica ‘Purpurea Tricolor’  
*Fagus sylvatica ‘Purpurea Major’* = Fagus sylvatica ‘Riversii’  
*Feijoa sellowiana* = Acca sellowiana  
*Ficus australis* = Ficus rubiginosa ‘Australis’  
*Ficus magnolioides* = Ficus macrophylla  
*Ficus nitida* = Ficus benjamina

*Ficus repens* = Ficus pumila  
*Ficus retusa* = Ficus microcarpa  
*Fothergilla monticola* = Fothergilla major  
*Fraxinus oxycarpa* = Fraxinus angustifolia  
*Freylinia cestroides* = Freylinia lanceolata  
*Fuchsia ‘Exoniensis’* = Fuchsia ‘Corallina’

#### G

*Gardenia grandiflora* = Gardenia augusta  
*Gardenia jasminoides* = Gardenia augusta  
*Genista monosperma* = Retama monosperma  
*Geranium grandiflorum* = Geranium himalayense  
*Glandularia pulchella* = Verbena pulchella  
*Grevillea lanigera ‘Mt. Tamboritha’* = Grevillea lanigera ‘Compacta’

#### H

*Hakea saligna* = Hakea salicifolia  
*Halesia tetraptera* = Halesia carolina  
*Hardenbergia violacea ‘Alba’* = Hardenbergia violacea ‘White Crystal’  
*Hebe buxifolia* = Hebe odora  
*Hebe ‘Carl Teschner’* = Hebe ‘Youngii’  
*Hebe ‘Waikiki’* = Hebe ‘Mrs. Winder’  
*Hedera algeriensis* = Hedera canariensis var. algeriensis  
*Hedera helix ‘Oro di Bogliasco’* = Hedera helix ‘Goldheart’  
*Helichrysum lanatum* = Helichrysum thianschanicum  
*Helichrysum petiolare ‘Aurea’* = Helichrysum petiolare ‘Limelight’  
*Helichrysum rosmarinifolius* = *Ozothamnus rosmarinifolius*  
*Helleborus corsicus* = Helleborus argutifolius  
*Heptacodium miconioides* = Heptacodium jasminoides  
*Hibiscus syriacus ‘Oiseau Bleu’* = Hibiscus syriacus ‘Blue Bird’  
*Hippocrepis emerus* = Coronilla emerus  
*Hosta albomarginata* = Hosta sieboldii  
*Hosta plantaginea. var. japonica* = Hosta plantaginea ‘Grandiflora’  
*Hosta sieboldiana ‘Elegans’* = Hosta sieboldiana var. elegans  
*Hosta undulata var. undulata ‘Mediovariegata’* = Hosta undulata var. undulata  
*Hoya bella* = Hoya lanceolata subsp. bella  
*Hydrangea aspera ‘Villosa group’* = Hydrangea villosa  
*Hypericum polyphyllum* = Hypericum olimpicum var. minus

#### I

*Iberis sempervirens ‘Snowflake’* = Iberis sempervirens ‘Schneeflocke’  
*Ilex furcata* = Ilex cornuta  
*Iris kaempferi* = Iris ensata  
*Iris pallida ‘Aurea Variegata’* = Iris pallida ‘Variegata’  
*Iris stylosa* = Iris unguicularis

#### J

*Jacobinia suberecta* = *Dicliptera suberecta*  
*Jasminum capense* = Jasminum angulare  
*Jasminum fluminense* = Jasminum azoricum  
*Jasminum primulinum* = Jasminum mesnyi  
*Jasminum reevesii* = Jasminum humile ‘Revolution’  
*Jasminum sambac ‘Flore Pleno’* = Jasminum sambac ‘Grand Duke of Tuscany’  
*Juniperus horizontalis ‘Andorra’* = Juniperus horizontalis ‘Plumosa’  
*Juniperus horizontalis ‘Andorra C. ’* = J. horizontalis ‘Plumosa Compacta’  
*Juniperus sabina ‘Blue Danube’* = Juniperus sabina ‘Blaue Donau’  
*Justicia lutea* = Pachystachys lutea  
*Justicia pauciflora* = Justicia rizzinii  
*Justicia suberecta* = Dicliptera suberecta

#### K

*Kerria japonica ‘Variegata’* = Kerria japonica ‘Picta’

#### L

*Lantana sellowiana* = Lantana montevidensis  
*Laurus laurifolius* = *Cocculus laurifolius*  
*Lavandula stoechas ‘Papillon’* = Lavandula stoechas subsp. pedunculata  
*Lavatera olbia ‘Rosea’* = Lavatera ‘Rosea’  
*Leucophyta brownii* = Calocephalus brownii  
*Libocedrus decurrens* = Calocedrus decurrens

*Libonia floribunda* = Justicia rizzinii  
*Lippia citriodora* = Aloysia triphylla  
*Lippia nodiflora* = Phyla nodiflora  
*Lonicera nitida ‘Zabelii’* = Lonicera korolkowii var. zabelii  
*Lupinus ‘Edelknabe’* = Lupinus ‘The Page’  
*Lupinus ‘Kastelan’* = Lupinus ‘The Governor’  
*Lupinus ‘Kronleuchter’* = Lupinus ‘Chandelier’  
*Lupinus ‘Schlossfrau’* = Lupinus ‘The Chatelaine’

#### M

*Maclura aurantiaca* = Maclura pomifera  
*Magnolia fuscata* = Michelia figo  
*Magnolia obovata* = Magnolia hypoleuca  
*Magnolia parviflora* = Magnolia sieboldii  
*Magnolia yulan* = Magnolia denudata  
*x Mahoberberis miethkeana* = x Mahoberberis aquisargentii  
*Mendevilla suaveolens* = Mandevilla laxa  
*Manettia bicolor* = Manettia luteorubra  
*Manettia inflata* = Manettia luteorubra  
*Malvastrum capensis* = Anisodontea capensis  
*Mandevilla suaveolens* = Mandevilla laxa  
*Melaleuca acuminata* = Melaleuca nesophila  
*Mentha repens* = Mentha diemenica  
*Mentha rotundifolia* = Mentha suaveolens  
*Mentha sylvestris* = Mentha longifolia  
*Murraya exotica* = Murraya paniculata  
*Myosotis palustris* = Myosotis sylvatica  
*Myrtus luma* = Luma apiculata  
*Myrtus ugni* = Ugni molinae

#### N

*Nolina recurvata* = Beaucarnea recurvata  
*Nolina tuberculata* = Beaucarnea recurvata

#### O

*Oenothera missouriensis* = Oenothera macrocarpa  
*Ophiopogon planiscapus ‘Black Dragon’* = Ophiopogon planiscapus ‘Nigrascens’  
*Ophiopogon spicatus ‘Silver Dragon’* = Liriope spicata ‘Silver Dragon’  
*Osmanthus aquifolium* = Osmanthus heterophyllus  
*Osmanthus goshiki* = Osmanthus heterophyllus ‘Tricolr’  
*Othonnopsis cheirifolium* = Othonna cheirifolia

#### P

*Paeonia. ‘Five Continents’* = Paeonia suffruticosa ‘Godaishu’  
*Paeonia ‘Magnificent Flower’* = Paeonia suffruticosa ‘Hana-daijin’  
*Pandorea lindleyana* = Clytostoma callistegioides  
*Papaver nudicaule* = Papaver croceum  
*Passiflora mollissima* = Passiflora tripartita var. mollissima  
*Passiflora sanguinea* = Passiflora vitifolia  
*Passiflora violacea* = Passiflora ‘Amethyst’  
*Paulownia imperialis* = Paulownia tomentosa  
*Pavonia rosea* = Pavonia hastata  
*Pernettya mucronata* = Gaultheria mucronata  
*Petasites japonicum* = Farfujum japonicum  
*Phaedranthus buccinatorius* = Distictis buccinatoria  
*Phillyrea decora* = Osmanthus decorus  
*Phlox paniculata ‘Neubert’* = Phlox paniculata ‘Newbird’  
*Phormium ‘Emerald Pink’* = Phormium ‘Jester’  
*Phormium ‘Maori Maiden’* = Phormium ‘Rainbow Maiden’  
*Phormium ‘Maori Queen’* = Phormium ‘Rainbow Queen’  
*Photinia serrulata* = Photinia serratifolia  
*Phylica arborea* = Phylica superba  
*Physostegia speciosa* = Physostegia virginiana  
*Picea excelsa* = Picea abies  
*Picea pungens ‘Glauca Globosa’* = Picea pungens ‘Globosa’  
*Pinus austriaca* = Pinus nigra  
*Pinus excelsa* = Pinus wallichiana  
*Pinus mugo var. pumilio* = Pinus mugo  
*Pinus sylvestris ‘Nana’* = Pinus sylvestris ‘Watereri’

*Pittosporum nigricans* = *Pittosporum tenuifolium*  
*Platanus acerifolia* = Platanus x hispanica  
*Platycladus orientalis* = Thuja orientalis  
*Pleioblastus humilis var. pumilus* = Pleioblastus pumilus  
*Plumbago capensis* = Plumbago auriculata  
*Plumbago larpentiae* = Ceratostigma plumbaginoides  
*Plumbago rosea* = Plumbago indica  
*Poinciana gilliesii* = Caesalpinia gilliesii  
*Polygala myrtifolia var. grandiflora* = Polygala x dalmaisiana  
*Polygonum affine* = Persicaria affinis  
*Polygonum baldschuanicum* = Fallopia baldschuanica  
*Polygonum capitatum* = Persicaria capitata  
*Populus alba boleana* = *Populus alba ‘Pyramidalis’*  
*Populus x candicans* = Populus x jackii ‘Gileadensis’  
*Potentilla arbuscula* = Potentilla fruticosa var. arbuscula  
*Prunus ‘Fugenzo’* = Prunus ‘Shirofugen’  
*Prunus ‘Kiku-shidare-zakura’* = Prunus ‘Cheal’s Weeping’  
*Prunus lusitanica ‘Angustifolia’* = Prunus lusitanica ‘Myrtifolia’  
*Prunus mirabolana* = Prunus cerasifera  
*Pseudotsuga douglasii* = Pseudotsuga menziesii  
*Psidium cattleianum* = Psidium littorale var. longipes  
*Pterocaria caucasica* = Pterocaria fraxinifolia

#### Q

*Quercus borealis* = Quercus rubra  
*Quercus conferta* = Quercus frainetto  
*Quercus edulis* = Lithocarpus edulis  
*Quercus ilex var. rotundifolia* = Quercus rotundifolia  
*Quercus pedunculata* = Quercus robur  
*Quercus pumila* = Quercus phellos  
*Quercus sessiliflora* = Quercus petraea  
*Quercus x pseudosuber* = Quercus x hispanica

#### R

*Rhodantemum hosmariensis* = Leucanthemum hosmariensis  
*Rhus cotinus* = Cotinus coggygria  
*Ribes aureum* = Ribes odoratum  
*Robinia pseudoacacia ‘Monophylla’* = Robinia pseudoacacia ‘Unifoliola’  
*Rosmarinus officinalis ‘Pyramidalis’* = Rosmarinus officinalis ‘Miss Jessop’s Upright’  
*Rudbeckia purpurea* = Echinacea purpurea  
*Ruscus racemosus* = Danae racemosa  
*Russelia juncea* = Russelia equisetiformis

#### S

*Salix caprea ‘Pendula’* = Salix caprea ‘Kilmarnock’  
*Salix matsudana ‘Tortuosa’* = Salix babylonica var. pekinensis ‘Tortuosa’  
*Salvia grahamii* = Salvia microphylla  
*Salvia neurepia* = Salvia microphylla var. neurepia  
*Santolina virens* = Santolina rosmarinifolia  
*Sasa albomarginata* = Sasa veitchii  
*Sasa tessellata* = Thamnocalamus tessellatus  
*Sedum douglasii* = Sedum stenopetalum  
*Senecio clivorum* = Ligularia dentata  
*Senecio greyi* = Brachyglottis greyi  
*Senecio leucostachys* = Senecio viravira  
*Senecio monroi* = Brachyglottis monroi  
*Sequoia giganteum* = Sequoiadendron giganteum  
*Skimmia x foremanii* = Skimmia japonica ‘Veitchii’  
*Solandra nitida* = solandra maxima  
*Sorbus aria ‘Decaisneiana’* = Sorbus aria ‘Majestica’  
*Spiraea japonica ‘Alba’* = Spiraea japonica var. albiflora  
*Spiraea reevesiana* = Spiraea cantoniensis  
*Spiraea sorbifolia* = Sorbaria sorbifolia  
*Stachys lanata* = Stachys byzantina  
*Sterculia acerifolia* = Brachychiton acerifolius  
*Sterculia platanifolia* = Firmiana simplex  
*Strelitzia augusta* = Strelitzia alba

**T**  
*Tamarix aestivalis* = Tamarix ramosissima  
*Tamarix pentandra* = Tamarix ramosissima  
*Taxodium sempervirens* = Sequoia sempervirens  
*Tetrapanax papyriferus* = Tetrapanax papyrifer  
*Tetrastigma voinerianum* = Vitis voinerianum  
*Thevetia nerifolia* = Thevetia peruviana  
*Thymus praecox ‘Coccineus’* = Thymus serpyllum var. coccineum  
*Thymus praecox ‘Minor’ ‘*= Thymus praecox ‘Pygmaeus’  
*Thymus praecox ‘Purple Beauty’* = Thymus polytrichus ‘Purple Beauty’  
*Thymus x citriodorus ‘Anderson’s Gold’* = Thymus x citriodorus ‘Bertram Anderson’  
*Tibouchina semidecandra* = Tibouchina urvilleana  
*Toxicodendron typhina* = Rhus typhina  
*Toxicodendron typhina ‘Laciniata’* = Rhus typhina ‘Laciniata’  
*Tricuspidaria lanceolata* = Crinodendron. hookerianum

**U**  
*Ulmus campestris* = Ulmus pumila  
*Ulmus carpinifolia* = Ulmus pumila

**V**  
*Vachellia farnesiana* = Acacia farnesiana  
*Viburnum fragrans* = Viburnum farreri  
*Viburnum opulus ‘Sterile’* = Viburnum opulus ‘Roseum’  
*Viburnum plicatum ‘Watanabei’* = Viburnum plicatum ‘Nanum Semperflorens’  
*Vinca minor ‘Variegata’* = Vinca minor ‘Argenteovariegata’  
*Vitis aconitifolia* = Ampelopsis aconitifolia

**W**  
*Wattakaka sinensis* = Dregea sinensis  
*Wax flower* = Chamaelacium uncinatum ‘Album’  
*Westringia rosmariniformis* = Westringia fruticosa
